MONETARY AND COMMERCIAL.

In business circles there is no notable change. Trade is languid, and purchasers confine themselves to current needs. The prospect for a good fishery is by means encouraging, and the outlook for a more prosperous state of affairs is still clouded. Money matters remain about as for the past month. There is no pressing demand for business purposes, but among the people there is but little money circulating and much complaint of its searcity. We notice that in Baltimore the supply of capital effering for temporary investment has increased in the last day or two, and the tendency of the market has changed from hardening to esse. Call loans on Government collateral have been made at 3 per cent, and on good mixed collateral the rates are 455. Prime commercial paper sells at 41 to 6, with a few best known names passing at 4 per et. The New York money market yesterday was stringent, and call loans were active at 6 per ct. The supply of funds in the Philadelphia money market are liberal, and the quotations rule at 14 per cent for loans, and 4-6 for discounts. Government bonds strong and | higher for the 51 of 1881, the 43s and the 4 per cents, the latter being up to 991a991 coupon on, and 881a881 ex April interest. The subscriptions to the 4 per cent loan yesterday amounted to \$55,150, making a total of \$7,816,650 since the last call for per cent bonds was issued. Virginia consols opened a shale firmer, yesterday in Baltimore, \$2,000 selling at 13, but subsequently some \$21,000 changed hands at from 572 down to 571, closing with this price bid, 57% asked. Posters were also weaker, closing 411 bid, 45 asked, against 453 bid, 457 asked on Wodnesday. Conpons were stoady at 80, with small sales. The movement in Virginias is active, but the speculation is somewhat uncortain. Buyers at the late low figures are prepared to realize to some extent, and on the other hand there are soparently a number of orders affect to buy when a tavorable opportunity citers. Railroad stocks are dull and heavy. B & O common stock is quoted at 94x95, and a small amount of dividend scrip sold at 94. In local shares there is nothing

Nor is this surprising, for it is the medicine of all others best adapted to the wants of the Western emigrant, be he miner, or agriculturist. It is an incomparable remedy for the diseases to which he is most subject, and which are liable to be brought on by a change of climate, hardship, exposure, traccustomed air and diet, and mias-matic atmosphere and water. Among these are disorders of the stomach and bowels, rheumatic ailments, and malarious fevers, for all of which Hostetter's Bitters is a certsin specific. BY UNIVERSAL ACCORD AYER'S CA THARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vege table no harm can arise from their use. In intrinsic value and curative powers no other Pill can be compared with them, and every person, knowing their virtues, will employ them, when needed They keep the system in perfect order, and maintain in healthy action the whole ma-chinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are tho best and eafest physic to employ for children and weakened constitutions, where a mild, but effectual, cathartic is required. E. S. Leadbeater & Bro., Agents.

MEDICINAL.

This important organ weighs but about three pounds, and all the blood in a living person (about three gallons) pesses through it at least once every half bour, to have the bile and other impurities strained or filtered from it. Bile is the natural purgative of the bowels, and if the Liver becomes torpid it is not separated from the blood, but carried through the veins to all parts of the system, and in trying to escape through the sores of the skin, causes it to turn yellow or a dirty brown color. The stomach becomes diseased and Dyspepsis, Indigestion, Constipation, Headache, Bilioueness, Jaundice, Chilis, Malarial Fevers, Piles, Sick and Sour Stomach, and general debility follow, MER-RELL'S HEPATINE, the great vegetable discovery for torpidity, causes the Liver to throw off from one to two ounces of bile each time the blood passes through it, as long as there is an excess of bile; and the effect of even a few does upon yellow complexion or a brown, dirty locking skin, will astonish all who try it—they being the first symptoms to disappear. The cure of all bilious diseases and Liver complaint is made certain by taking Hepatine in accordance with directions. Headache is generally cured in twenty minutes, and no disease that arises from the Liver can exist if a fair trial is given. Take no pills when you can get Hepafine at the same price. For sale by
